Pattern Piece Compilation

The Pattern sections are produced so that you can compile them as separate pieces for greater accuracy.

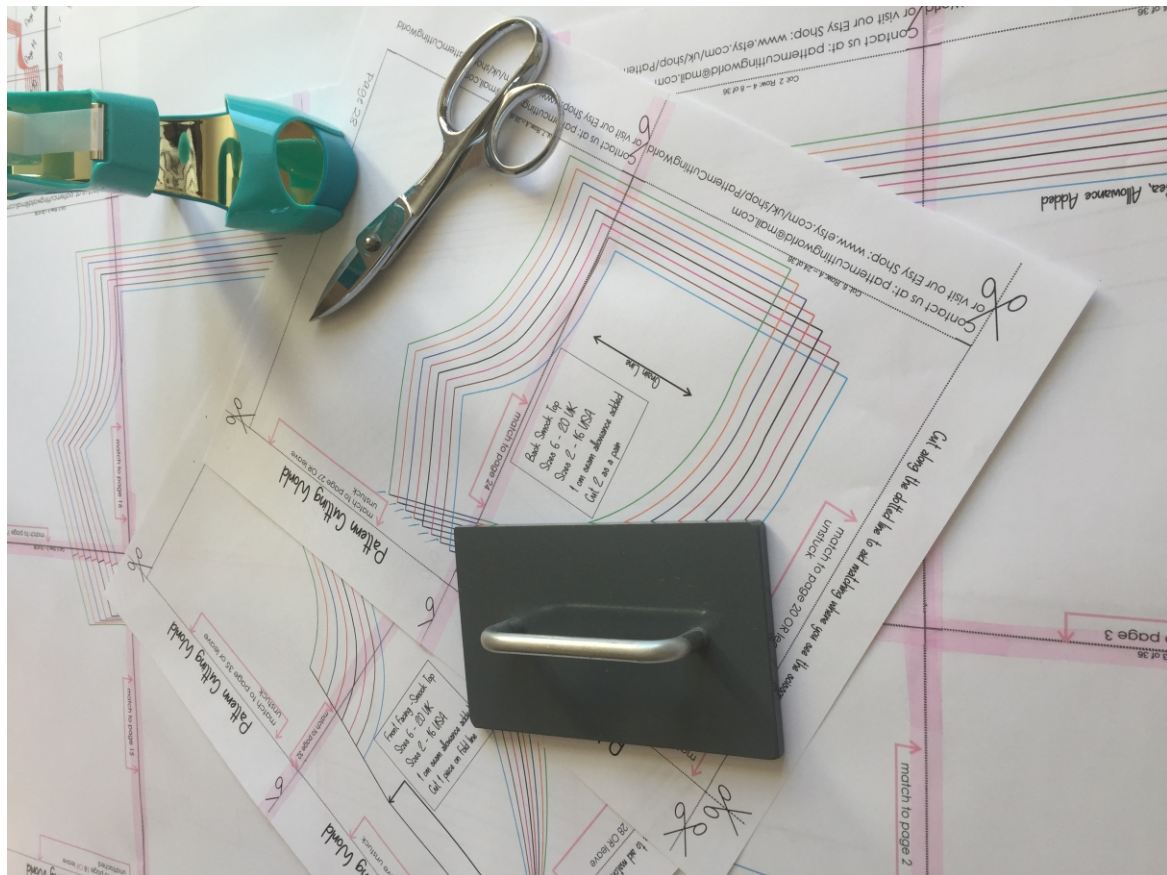

Match Pages 1,2,5,6,9,10,13,14,17 & 18 for Front Smock

Match Pages 3,4,7,8,11,12,15,16,19, & 20 for Back Smock

Match Pages 21,22,23,25,26,27,29,30,31,33,34 & 35 for Sleeve

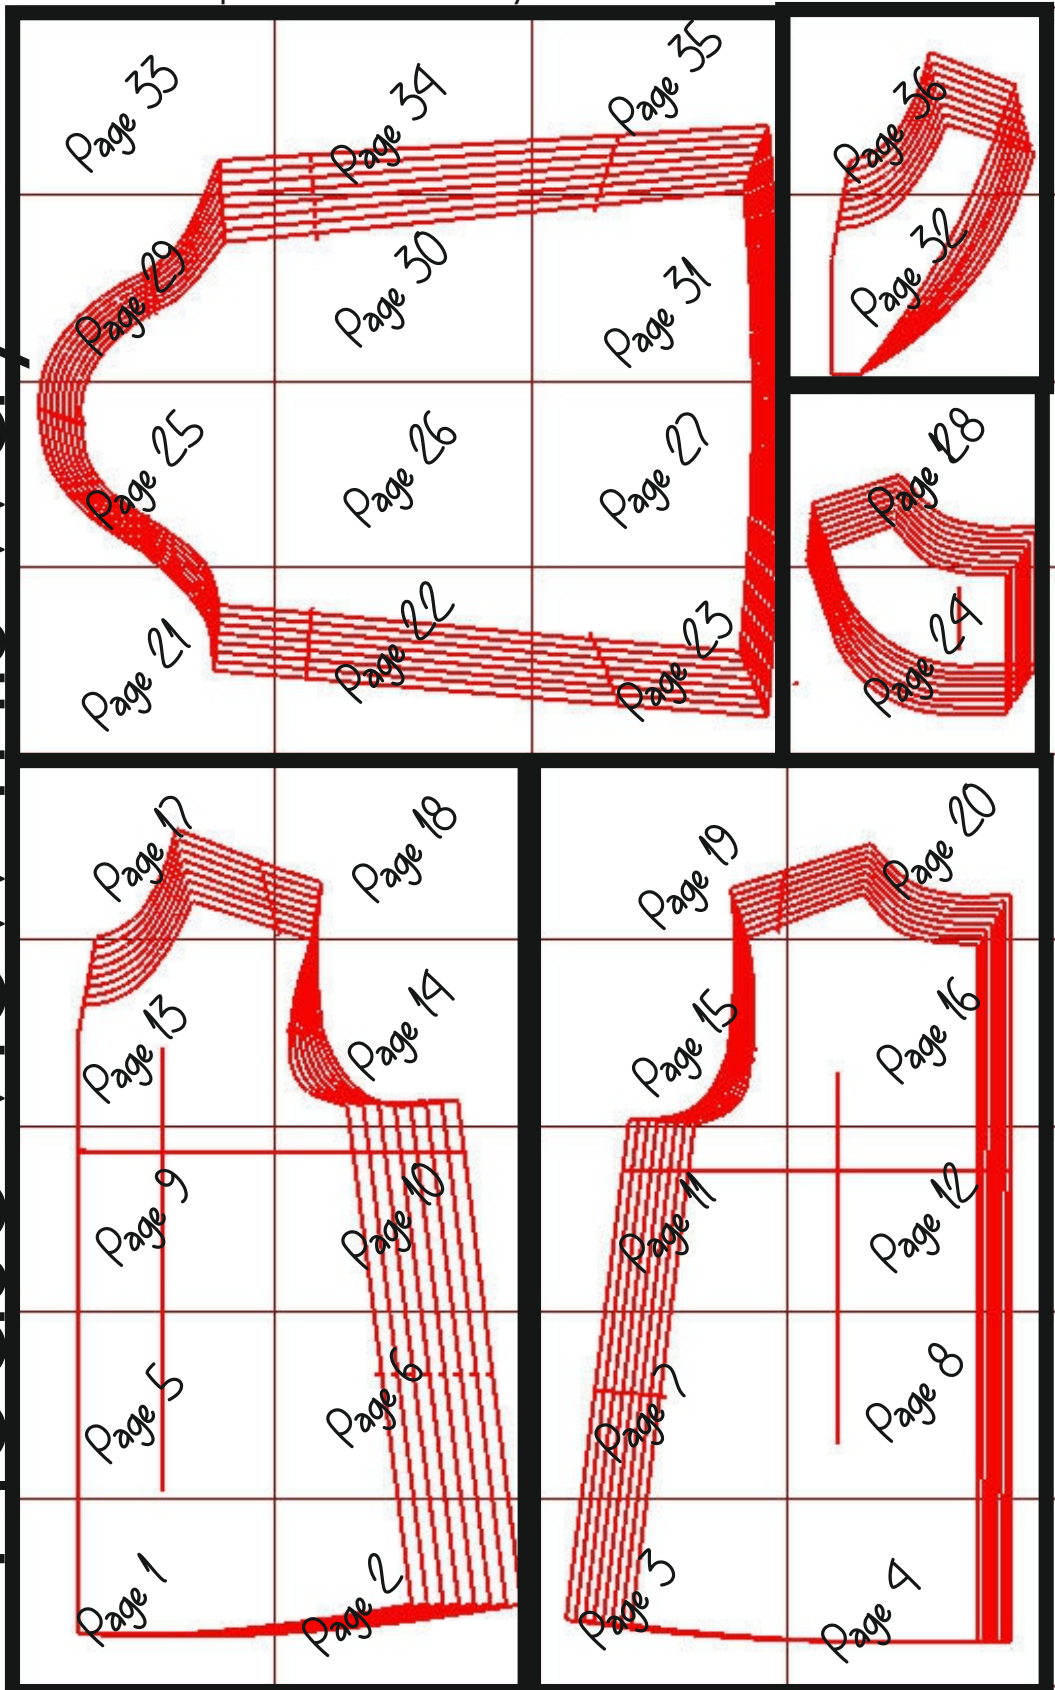

Match Pages 24 & 28 for Back Facing

Match Pages 32 & 36 for Front Facing.

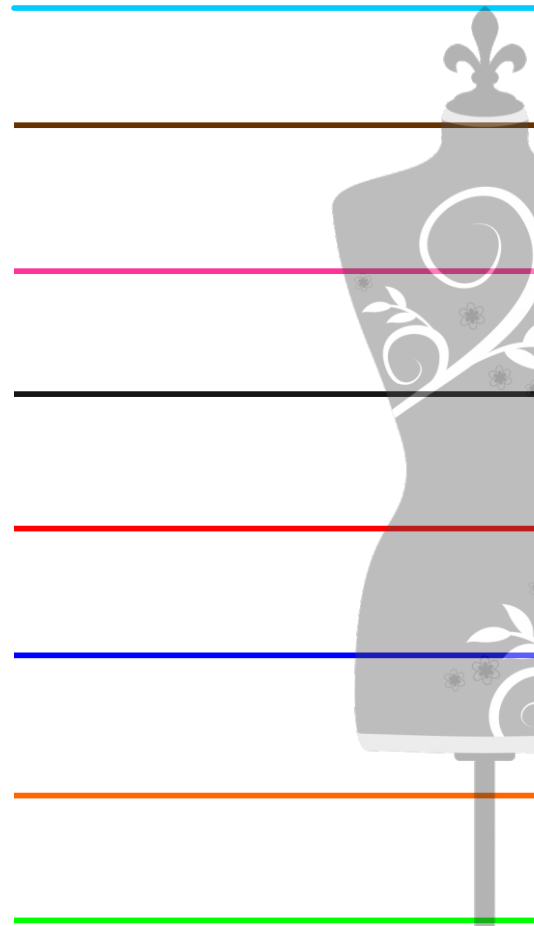

NOTE- The patterns have been organised so that you can compile them separately. This helps with the accuracy of matching the lines. It is inevitable that you will be off by a fraction if you match too many pages together! We want our patterns to be as perfect as they can be!
